ABOUT ME

Graduate with a Master's degree in Artificial Intelligence from the University of Dschang, I am deeply passionate about Natural Language Processing (NLP), Large Language Models (LLMs), and knowledge graphs. My academic journey has led me to design innovative solutions combining conceptual modeling, semantic reasoning, and automated generation, notably through the integration of LLMs into model-driven engineering processes. Curious, rigorous, and innovation-driven, I am committed to building intelligent systems capable of understanding, structuring, and leveraging knowledge efficiently.

EDUCATION AND TRAINING

Master's Degree in Artificial Intelligence

University of Dschang [2023 – 2025]

City: Dschang | Level in EQF: EQF level 7

Bachelor's Degree in Computer Engineering

University of N'Djamena [2019 – 2022]

City: N'Djamena | Country: Chad | Level in EQF: EQF level 6

High School Diploma in Science

Lycée de la Liberté [07/2019]

City: N'Djamena | Country: Chad | Level in EQF: EQF level 4

WORK EXPERIENCE

 *University of the Sahara of Faya (UNISAF) – Faya-Largeau, Chad*

Assistant lecturer

[Current]

- Teaching undergraduate courses in Information and Communication Technologies (ICT).
- Preparing lectures, tutorials and practical sessions in computer science.
- Supervising students' academic projects and providing mentoring.
- Developing teaching resources and course materials using digital tools.
- Participating in academic and administrative activities of the university.

 *National Higher Institute of Sciences and Techniques of Abéché (INSSTA) – Abeché, Chad*

Assistant lecturer

[02/2026 – Current]

- Teaching undergraduate courses in Information and Communication Technologies (ICT).
- Preparing lectures, tutorials and practical sessions in computer science.
- Supervising students' academic projects and providing mentoring.
- Developing teaching resources and course materials using digital tools.

 *nstitute of Applied Sciences and Humanities – N'Djamena, Chad*

Assistant lecturer

[10/2024 – Current]

 **University of N'Djamena** – N'Djamena

Enrollment Officer

[02/2023 – 12/2024]

- Developed and maintained internal applications
- Collected and managed student data
- Handled diploma issuance system

 **Virtual University of Chad** – N'Djamena, Chad

Web developer

[2022 – 2023]

- Designed and integrated web user interfaces
- Assisted with the deployment of online learning platforms

LANGUAGE SKILLS

Mother tongue(s): French | Arabic

Other language(s):

English

LISTENING C1 **READING** C2 **WRITING** C2

SPOKEN PRODUCTION C1 **SPOKEN INTERACTION** B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Python Programming / Natural Language Processing / Tensorflow / Deep Learning / Pytorch / Transformers Architecture / Text Mining / Data Analysis / Research Collaboration

ACADEMIC PROJECTS / RESEARCH WORK

[07/2025]

Master Thesis

Automatic code generation from UML class diagrams using LLMs (CodeLlama, DeepSeek-Coder) and MDE."

Tools: Python, Django, XML parser, Java, HuggingFace, Prompt Engineering.

[2024]

Continuous Authentication Using Keystroke Dynamics

This project focuses on continuous user authentication using keystroke dynamics, specifically analyzing how users type a fixed password. A hybrid CNN-LSTM model was trained on the CMU keystroke dataset, capturing both spatial and temporal features of typing behavior. The system achieved an accuracy of 92%, demonstrating its effectiveness in distinguishing genuine users from impostors in real time.
